14. Negotiations: In accordance with Section 2-201 (7) of its Procurement Procedures, the Library may negotiate with offerors regarding the evaluation criteria contained in the Request for Proposals. All apparently eligible offerors will be accorded an opportunity to submit best and final proposals if negotiations with any other offeror has resulted in a material alteration to the RFP and such alteration has resulted in a cost consequence which may affect the order of ranking to the proposals. In conducting negotiations, no information derived from competing proposals will be disclosed.
15. Award: Award will be made to the responsive offeror(s) whose proposal(s) is/are determined to be the most advantageous to the Library, its employees, its users, and the taxpayers of Richland County. The evaluation factors are set forth herein. Factors are included in Part I(C). Only the factors listed will be used to evaluate proposals. The Library reserves the right to reject any or all proposals, in whole or part, to waive any minor irregularities, and to cancel in part or whole this solicitation if it is in the best interest of the Library.

17. Termination: The Library may cancel the contract in writing without prior notice during the

first ninety (90) days if, in the sole discretion of the Library, the contractor's performance of the required services is unsatisfactory; after the first ninety (90) days, the Library may cancel the contract only on thirty (30) days' prior written notice to the contractor.

The Library may cancel the contract for cause, default, or negligence of the contractor without prior notice at any time during the term of the contract.

18. Price Adjustment: Any request for a price increase by the contractor must be approved in writing by the Library Director and must occur at the time of annual contract renewal. 21. Indemnification: Contractor agrees to hold the Library, its employees, officers and agents harmless from liability from any claims, damages, and actions of any nature arising from the use of any materials furnished or services performed by the contractor, provided that such liability is not attributable to negligence on the part of the Library, its officers, employees or agents.

General Requirements of Service:

The main library and all branch libraries are to be cleaned during normal operating hours. The main library and the Southeast, Sandhills, and St. Andrews branches are to be cleaned seven days per week. All other libraries are to be cleaned every day they are open. Janitorial staff can begin their work day as early as 7:30am at the main library. Discretion here is being left to the offeror to determine start times, so long as all work called out to be completed prior to opening of the building can be accomplished. Janitorial staff are to start work at 8:45am at all branch libraries, unless a cleaner works at more than one branch. If a staff member cleans more than one branch, they will begin at 8:45am at the first branch and report to the next building at approximately the same time each day.

All employees of the janitorial service contractor working on Library property must have a criminal records check and a sex offender registry check completed on them at the expense of the contractor. The janitorial services contractor assumes all liability for acts on the part of its representatives and employees resulting in injury to Library staff and patrons.

Janitorial staff must be trained in the safe and proper use of all equipment and chemicals. Any material used on the job that requires a Material Data Safety Sheet must have the MSDS posted in the storage/use location of the material and a copy provided to the Library Safety/Security Manager. Contractor's employees must comply with all local, state, and federal laws, statutes, regulations or other mandatory directives including, but not limited to, those issued by OSHA and SC DHEC.

Janitorial staff are to be assigned to a particular building on a regular basis. It is the intent of the Library to have consistency of cleaning staff and a minimum of staffing, multiple shifts of part-time personnel in order to save on staffing costs is not desirable.

The staff of the janitorial company must wear a company uniform with the company's logo displayed prominently on the front of the shirt or smock. All janitorial staff must wear an identification tag at all times while on duty. Janitorial staff at branch libraries are to park their vehicles in an area approved by the Branch Manager. Janitorial staff at the Main Library are prohibited from parking on Library property.

No person who is not employed under this contract may accompany an employee to work. The janitorial company must be prepared to send substitute staff to Main or a branch if a regular staff member is absent from work. Procedures for substitute coverage must be established by the contractor such that the substitute arrives to work on time.

The Library's contact person for the supervision of the janitorial service contract is the Operations Supervisor and he is the point of contact at the Main Library. The Branch Manager at each branch library is the point of contact at that location. A manager, or supervisor, for the Janitorial Service Company is to be assigned to the Library's contract on a permanent basis to oversee all buildings. The janitorial manager is to be available to the Library to address concerns with quality and contract compliance on a daily basis during normal business hours. The janitorial manager should actively supervise the work of his crew and inspect each library on a regular to ensure high quality service.

The contractor is liable and responsible for damages to Library property caused by action or negligent inaction on the part of his employees. Damages are to be repaired or paid for at the discretion of the Library. False alarms for fire or security caused by employees of the contractor will be paid for by the contractor in cases where the responding authority charges the Library for responding.

The contractor may use the janitor's closets on all levels of the main library. There is a janitor's closet with sink available at each branch, two at the Northeast Regional Branch. All equipment is to be stored in the janitor's closet when not in use. Janitor's closets are to be kept neat, clean, and safe. No storage is allowed in electrical closets or any other closet that is adjacent to a janitor's closet. No doors, stairwells, or emergency exits are to be blocked with equipment at any time.

Areas of the main library are to be cleaned in the same order each day so that library staff can expect the cleaner(s) at about the same time. The Hennig Administration Center on Third Level is to be cleaned first followed by the other staff offices on that floor. It is recommended that a logical pattern be used to clean the building such as: Third Level staff areas followed by staff areas on Second, First, and Garden; then public areas starting on Third and working down to Garden Level. Large areas of terrazzo and tile flooring that have to be closed to traffic for cleaning with no detours available should be cleaned first thing in the morning prior to the library opening to the public. Personnel are to be assigned specific areas and duties within the building so that library staff will see the same faces each day. If the entire building is clean prior to 5pm, at least one cleaning staff member is to remain on duty at the main library until 5pm in order to clean

restrooms and attend to emergencies.

The restrooms at all locations are heavily used throughout the day and have historically been difficult to keep clean. There is a basic level of service required of the proposals for cleaning restrooms and an alternate additional services price being requested in this RFP.

The basic service in the restrooms at the branches is to have them cleaned once while the cleaning crew is doing its routine daily cleaning. The basic service at main is to have all restrooms cleaned once in the morning and patrolled hourly thereafter until 5 pm. During the hourly patrols, all messes should be attended to and, if necessary, the restroom cleaned again.

A separate price must be included on the cost form for the following:

Optional Added Service Restroom Cleaning:

The added service at **all branches** is to have a second restroom cleaning every day. The time of this cleaning should be such that the basic cleaning and additional cleaning are spaced evenly in relation to the operating hours of the building.

The added service at the **main library** is to clean all restrooms fully, twice per day, and have at least one janitorial staff member in the building all hours the library is open, every day. This person will continue patrolling the restrooms after 5 pm, until 9 pm, to ensure that all the restrooms are clean at all times.

Added service at **all locations** includes mechanically scrub and disinfect all surfaces in all restrooms using a system such as Kaivac at least every three months. The price should be itemized per building on the cost form.

Cleaning of meeting rooms and auditoriums at all locations and storytime room at Main is to be coordinated with library staff so that rooms are ready for functions. If the auditorium at the main library is to be used for an entire day for a function, cleaning will have to be done after the final function on the previous day, or at 8:30am the day of the function.

The Library will supply toilet paper, paper towels, trash can liners, and hand soap. Contractor will supply all equipment and supplies necessary for cleaning. No bleach is allowed in any library building.

Specifics:
